94. CG-LOCK

The CG-Lock® is for daily drivers that are driven hard. Hard as in drag racing, drifting, track days, or autocross. The CG-Lock clips onto the tongue of your vehicle's factory seatbelt. Once installed, you pull up on the shoulder harness of your seatbelt, and the lap belt portion provides about 80 percent of the holding power of a full harness and stays as tight as you want until you release it!

FITS: UNIVERSAL

WEB: CG-LOCK.COM

MSRP: \$41.95 (ONE), \$75.50 (TWO)
