

"The only cheaper way to increase performance is to shed weight"

"The CG-Lock is the lowest cost performance part you can put on your car"

www..CG-Lock.com

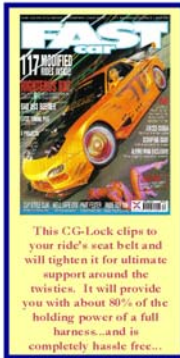

"I won the Canadian CAC Nationals Championship in CSS using the CG-Lock!"

"I'm a real track day animal and this CG-Lock is straight from drivers heaven."

"The last mod on an autocross car--don't forget to use it." - Jack Mac, Tuner Transformation on SpeedTV

This CG-Lock clips to your ride's seat belt and will tighten it for ultimate support around the twists. It will provide you with about 80% of the holding power of a full harness...and is completely hassle free...

Lower back pain is generally accepted as a by-product of long car journeys, but it needn't be that way. CG-Lock is a novel method of alleviating the dull ache modern seats can inflict...

"Those little gadgets are the coolest thing I have EVER seen.. WOW! What a cool idea and they work great..."

...it has actually been designed to make your seat belt act like a harness. You clamp this in place on your regular 3-point seatbelt and it locks the lap portion of the belt holding you in position stopping you or your passengers from sliding about...

"I recommend the CG-Lock to my clients with lower back pain. In most cases there is a significant improvement in comfort and reduced pain after long car journeys. It increases posture awareness & it helps body awareness"

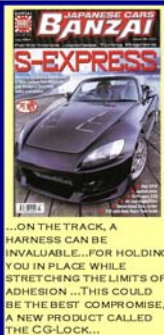

"... it is worth its weight in gold as far as I'm concerned."

This is one hell of a good idea, and word of its ease of fit, and the ability to hold even my 17 stone frame in the most flimsy of car seats is spreading fast amongst my colleagues. If you are looking for a cost effective way to increase driver control in any vehicle on any terrain you could definitely do worse than spend less than £50 on one of these. A class act in a small package. Well recommended. GARY POWELL REGISTERED STUNT COORDINATOR www.garypowellstunts.com

Quote from Tuner Transformation
"Yes, this little wonder product, referred to as a 'driver stability' device works like you can't believe. It is one of the best bangs for the bucks out there that you can buy. You want to improve the performance of your car - start with your own driving performance. Enthusiasts everywhere are using the CG-Lock to help improve their car control skills by keeping them firmly planted in their seat. It installs in mere minutes and will help reduce your autocross & Solo times and improve your drifting ability 10-fold."

...ON THE TRACK, A HARNESS CAN BE INVALUABLE...FOR HOLDING YOU IN PLACE WHILE STRETCHING THE LIMITS OF ADHESION...THIS COULD BE THE BEST COMPROMISE, A NEW PRODUCT CALLED THE CG-LOCK...

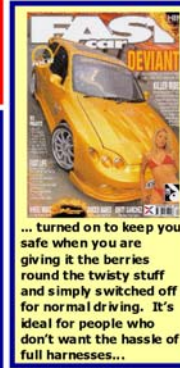

...and everyone wants the convenience of snapping themselves into a four- or six-point harness, especially when they're also using their track day car as a daily runner. The answer could be to invest in a CG-Lock.

"The CG Lock gave me about 70% of the security that I felt with my previous 4 point harness, at a much lower cost, much easier install, I can use it every day, and it doesn't potentially interfere with the factory safety equipment."

...A neat gadget for taking some of the discomfort out of your comfort zone has been brought...by CG-Lock. It's a small widget...

... turned on to keep you safe when you are giving it the berries round the twisty stuff and simply switched off for normal driving. It's ideal for people who don't want the hassle of full harnesses...
